About Me

I am a dedicated and ambitious Software Engineer with over a year of experience in the tech industry, specializing in developing and delivering full-stack applications. My expertise lies in building efficient, user-friendly software solutions using Vue.js, Laravel and Node.js, with a focus on creating seamless user experiences and reliable backend systems. I am committed to honing my technical skills and consistently delivering innovative solutions that drive business success.

Alongside my primary role, I have also worked on freelance projects, where I developed robust applications tailored to unique client requirements. These experiences have refined my problem-solving abilities, expanded my understanding of web technologies, and strengthened my project management skills, enabling me to work effectively in diverse team environments and adapt quickly to new challenges.

Working Experience

Onenex

Junior Software Engineer (Full-time)

October 2023 – Present
